Statement on Anti-Asian Racism

Peel/Halton CHF stands in solidarity with our Asian-Canadian community and condemns all forms of anti-Asian hate, racial discrimination, violence, and sentiments. The recent Atlanta spa shootings that killed eight people in total, including six Asian women have further brought anti-Asian racism to the forefront of conversations and protests. In Canada, we are not immune to this type of hatred and violence. We need to work towards a future where all people living in Canada feel safe, are treated with dignity and respect.

Here is how we can help.
